"NH<sub>3</sub> is the only realistic energy solution that makes sense."  
Matt Simmons, National Petroleum Council, Council on Foreign Relations, Founder, Ocean Energy Institute

"If I were to be rewarded for success and reprimanded for failure, I would pursue NH<sub>3</sub> as the most promising hydrogen carrier to meet the 2015 Freedom Car goals." George Parks, ConocoPhillips

**The NH<sub>3</sub> Fuel Association** The NH<sub>3</sub>FA is a non-profit association chartered to promote NH<sub>3</sub> as a sustainable, carbon-free fuel. Formerly known as the Ammonia Fuel Network (AFN).

**The time for change is NOW** There has never been a better time to tackle our dependence on petroleum. Our addiction to oil threatens international security, the environment and our economy. Using NH<sub>3</sub> as an energy solution can release us from these risks.

[NH<sub>3</sub>FA Introduction Paper - Why NH<sub>3</sub> is the best alternative energy solution to help us reduce foreign petroleum imports.](#)

[Join Now - Join and receive NH<sub>3</sub>FA News and Updates. Help us as we work to transition to a zero-carbon fuel source.](#)

#### Why NH<sub>3</sub>

**Practical Today** Large volumes of NH<sub>3</sub> is currently being shipped to, and piped and stored in, every industrial country. It has been proven to efficiently work in a number of engine types. Due to its high energy density, and the existing NH<sub>3</sub> delivery infrastructure, it is ready for market today as an alternative to foreign petroleum.

**New Jobs** Alternative energy solutions are also economic solutions. NH<sub>3</sub> will be produced by a number of manufacturing methods – some of which will require new research, technology, and a new job.

**Safe and Sustainable** Over 75 years of a proven, acceptable safety record. When used in engines, NH<sub>3</sub> releases ZERO carbon emissions. Alternative methods of NH<sub>3</sub> production will reduce our reliance on petroleum imports, and ensure a brighter future.

# AFN to NH3FA

- **Name – Ammonia Fuel Network to NH3 Fuel Association**
- **Annual Fees and Privileges**

**\$2,500 Sponsor Member** - Recognition on website, Newsletter, access to NH3FA website membership portal page (5 participant allowance).

**\$950 Group Member** - (Business, Government, Organization, Academic) Member – Newsletter, access to NH3FA website membership portal page (5 participant allowance).

**\$95 Individual Membership** - Newsletter, access to NH3FA website membership portal page

**\$25 Booster** - (individual) Member – Newsletter

# How to Join

## Website - Soon

*Checks now, Credit Cards and PayPal soon*

## Make checks payable to the: Ammonia Fuel Network

(after October 2010 – NH<sub>3</sub> Fuel Association)

### Mailing Address:

NH<sub>3</sub>FA Treasurer

27600 Northwestern Highway – Suite 205

Southfield, MI 48034 USA

**The NH<sub>3</sub>FA is a non-profit organization**

# Join Today

Annual Dues – From receipt of funds  
Check today – In the back ... ask me  
Invoice you?– Mark on Card

## Annual Fees and Privileges

- \$2,500 Sponsor Member** – Recognition on website, Newsletter, access to NH3FA website membership portal page (5 participant allowance).
- \$950 Group Member** (Business, Government, Organization, Academic) **Member** – Newsletter, access to NH3FA website membership portal page (5 participant allowance).
- \$95 Individual Membership** - Newsletter, access to NH3FA website membership portal page
- \$25 Booster (individual) Member** – Newsletter
